

# SHRINKK™

## Shrink Film

**SHRINKK™ Shrink Film** features a wide variety of standard and cross-linked center folded polyolefin shrink wrap for the packaging industry. SHRINKK™ Shrink Film is available in a variety of sizes and gauges that offer superior stretching strength and power, and boasts the following features:

- Manufactured with a sturdy, multi-layer blend of durable polyolefin-based materials.
- Engineered to be used in conjunction with both portable and automatic systems.
- Standard grade shrink film is designed to shrink at lower temperatures and is the most economic option for consumer needs.
- Cross-link grade shrink film is designed to shrink at higher temperatures and is the strongest option for heavier products.
